Tear-Away labels that can be removed easily from the garment with your hands.

Alstyle, Anvil by Gildan and almost all of the Gildan products feature "Tear-Away labels" that can be easily removed with your hands. This process allows the label to be removed without any need for tools and most importantly does not damage the garment stitching. It is a great feature that allows for label removal at no added cost, and makes it easy for those looking to rebrand with custom labelling and branding. Look out for the Tear-Away label icon throughout the catalogue, for those garments with this feature.

A person wearing a grey long-sleeved shirt is leaning on a dark metal railing. The background shows a city skyline across a body of water under a bright, slightly hazy sky. The person's hands are resting on the railing, and their arms are extended forward.

2021 COLLECTION

COMFORT COLORS®

TRUE ORIGINALS

For 45 years we've mastered the art of comfort. Fashioning a unique tried and true process that makes our Comfort Colors® tees feel and look the way they do. Inspired by the lush hues of nature, our distinctive, timeless style is delivered in authentic garments of incomparable softness, with an easy, lived-in attitude.

Others have tried to imitate what we've created, but our apparel is the result of decades of dedication to our craft. We put passion into every thread, from selecting the finest, softest cotton, to perfecting the process of garment-dyeing at the perfect temperature for just the right amount of time. Every step matters with no shortcuts or compromise in quality.

We're proud to keep on creating true originals destined to become forever favourites the moment you put them on.

Pigment Dyes

Inspired by the beauty of nature, we've honed our pigment-dye process into a fine art that pays homage to the shades of the natural world, crafting a rich expressiveness that improves with time. The process begins with crushed color molecules that bind to the fabric. Garments are then washed multiple times, resulting in weathered tones and subtle shades that continue to soften with wear, transforming a simple tee into a look that's pure lived-in comfort.

For colours that stay fast and garments that hold true, our direct/reactive-dye process delivers full, bold saturation. We achieve this result by taking our ultra-soft, prewashed cotton tees and completely imbuing them with colour. Once dyed, they're put through a process equivalent to fifty wash cycles. The result is vivid colour that lasts and an incredibly comfortable tee that won't shrink or lose its shape.

A photograph of a concrete skate bowl, viewed from a low angle looking up the side. The bowl's surface is light-colored and shows some wear and discoloration. In the background, a tall, modern apartment building with a grid of windows is visible, along with some green trees and a blue building with a red roof.
