BLUNT

A BLUNT umbrella is as much a fashion accessory as a high performance product. With a unique patented style, shape and pop of colour, you will always stand out no matter the weather - turning heads while keeping yours dry.

The Blunt umbrella is a perfect blend of form and function. The patented Blunt tips open like miniature umbrellas within custom pockets at the canopy edge and perform multiple purposes to make the blunt umbrella what it is. They create even tensioning of the canopy, providing a far superior structure and aerodynamic surface for overall superior performance and the rounded edges mean the tips are far safer than traditional umbrellas. The design means that Blunt umbrellas perform in all weather conditions - including winds up to 115kmh.
